## Independent Auditor's Report

Honorable Mayor and City Council  
City of Weirton  
200 Municipal Plaza  
Weirton, West Virginia 26062

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Weirton, West Virginia (the City), as of and for the year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the Auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Weirton, West Virginia as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Required Supplementary Information*

The City has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require this presentation to include the schedule of defined benefit pension trusts, schedules of net pension liabilities and pension contributions, schedules of net OPEB liabilities and OPEB contributions, and required budgetary comparison schedules, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, GASB considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

### *Supplementary and Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, the combining statements of individual nonmajor fund financial statements and fiduciary fund financial statements, and schedule of expenditures of state awards present additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor and fiduciary fund statements and schedules of expenditures of state and federal awards are the responsibility of management and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor and fiduciary fund statements and schedules of expenditures of state and federal awards are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

## **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated March 23, 2020, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

**AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS**  
**TO THE STATEMENT OF ACTIVITIES**  
**For the Fiscal Year Ended June 30, 2019**

---

Net change in fund balances - total governmental funds: \$ (307,899)

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlays as expense. The outlays are allocated over their estimated useful lives and reported as depreciation expense for the period. This is the amount by which capital outlays of \$3,381,139 exceeded depreciation expense of \$1,297,635 in the current period. 2,083,504

Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds. This consists of a decrease in property taxes and an increase in business and occupational taxes 20,941

Governmental funds report capital lease proceeds as current financial resources. In contrast, the Statement of Activities treats such issuance of debt as a liability. Governmental funds report repayment of capital lease principal as an expenditure. In contrast, the Statement of Activities treats such repayments as a reduction in long-term liabilities. This is the amount by which new capital leases of \$239,642 exceeded capital lease payments of \$200,266. (39,376)

Certain pension expenses in the statement of activities are recognized on the accrual basis of accounting in accordance with GASB Statement No. 68 and No. 75:

Amount of pension expenditures at fund modified accrual level	3,603,767	
Amount of pension expenses recognized at government - wide level	<u>(3,131,902)</u>	471,865
Amount of OPEB expenditures at fund modified accrual level	106,803	
Amount of OPEB expenses recognized at government - wide level	<u>53,456</u>	160,259

Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds. These result in a net increase in compensated absences of \$21,538. (21,538)

An internal service fund is used by management to charge the cost of gasoline to individual funds. The net revenue (expense) of the internal service fund is reported with governmental activities. (283,869)

Change in net position of governmental activities \$ 2,083,887

**NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting and reporting framework and the more significant accounting principles and practices of the City of Weirton, West Virginia (the City) conform to generally accepted accounting principles as applicable to governmental units and are discussed in subsequent sections of this Note. The remainder of the Notes are organized to provide explanations, including required disclosures, of the City's financial activities for the fiscal year ended June 30, 2019.

**A. Reporting Entity**

The City is a charter city in which citizens elect the mayor at large and seven council members by wards. The accompanying financial statements present the City's primary government and its component unit. This blended component unit, although a legally separate entity, is in substance part of the City's operations. The Library is reported as a blended component unit as a nonmajor governmental fund.

**B. Related Organizations**

Related organizations are excluded from the financial reporting entity because the City's accountability does not extend beyond making appointments. Financial statements are available from the respective organizations. Related organizations are described as follows:

*City of Weirton Housing Authority*

Administers federal funding and/or other financing for improvement of housing conditions in the City. The five citizens who serve as the governing board are approved by the City Council. The City has no significant influence over the management, budget, or policies of the Housing Authority. The Housing Authority reports independently.

*City of Weirton Transit Authority*

Administers federal funding and/or other financing for operating a bus transportation system in the City. The eleven citizens who serve as the governing board are approved by the City Council. The City has no significant influence over the management, budget, or policies of the Transit Authority. The Transit Authority reports independently.

*City of Weirton Redevelopment Authority*

Administers federal funding and/or other financing for the redevelopment of real estate within the City. The six citizens who serve as the governing board are approved by the City Council. The City has no significant influence over the management, budget, or policies of the Redevelopment Authority. The Redevelopment Authority reports independently.

**C. Government-Wide Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the primary government. All fiduciary activities are reported only in the fund financials. Governmental activities, which normally are supported by taxes, intergovernmental revenues and other nonexchange transactions, are reported separately from business-type activities, which rely, to a significant extent on fees and charges to external customers for support.

**CITY OF WEIRTON, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

---

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees, fines and forfeitures, and other charges to users of the City's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets and include fees to developers. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

**D. Basis of Presentation, Measurement Focus, and Basis of Accounting**

**1. Basis of Presentation – Government – Wide Financial Statements**

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and the internal service fund, while the business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

**2. Basis of Presentation – Fund Financial Statements**

The accounts of the City are organized on the basis of funds or group of accounts, each of which is considered a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, deferred inflows of resources, fund balances, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate financial statements for each fund category - governmental, proprietary, and fiduciary are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds in a single column.

The City reports the following major governmental fund types and funds:

**General Fund** - The general fund is the primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

**Special Revenue Funds** - Special revenue funds are used to account for the specific revenue sources that are restricted, committed, or assigned to expenditure for specified purposes. The City reports the following as major special revenue funds:

*Coal Severance Fund* - This special revenue fund accounts for revenues and expenditures from a severance tax placed on coal that is distributed to West Virginia municipalities.

The City reports the following proprietary fund types and funds:

**Enterprise funds** – Enterprise funds are employed to report on activities financed primarily by revenues generated by the activities themselves.

**CITY OF WEIRTON, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

---

*Proprietary Funds* distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The City reports the following major proprietary funds.

*Water Board Fund* - This fund accounts for the revenues and expenses generated by water services provided to the residents of the City as well as other entities.

*Sanitary Board Fund* - This fund accounts for the revenues and expenses generated by sewage services provided to the residents of the City as well as other entities.

*Board of Park Commissions Fund* - This fund accounts for the revenues and expenses generated by recreational facilities and services provided to the residents of the City.

**Internal Service Fund** - The internal service fund is used to account for operations that provide, on a user charge basis, services to other departments. The City's only internal service fund is the Gasoline Fund. As a general rule, the effect of internal service activity has been eliminated from the governmental-wide financial statements. However, it is reported as a proprietary fund in the fund financial statements.

The City reports the following fiduciary funds types and funds:

**Pension Trust Funds** - Report fiduciary resources held in trust and the receipt, investment, and distribution of retirement benefits. The City's pension trust funds are limited to uniformed employees (policemen and firemen).

**Agency Fund** - Accounts for fiduciary assets held by the City in a custodial capacity as an agent on behalf of others. The City's agency fund is used to account for various deposits, bail bonds, performance bonds, and escrow monies. Agency funds are accounted for using the accrual basis of accounting and do not present results of operation or have a measurement focus.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in preparation of the government-wide financial statements.

Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In the fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

### **3. Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

**CITY OF WEIRTON, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

---

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year in which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal year.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and pending litigation are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, business and occupation taxes, utility excise taxes, hotel/motel taxes, wine/liquor sales taxes, other miscellaneous tax revenue, video lottery proceeds, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. All other revenue items are considered to be measurable and available only when the government receives cash.

The proprietary and fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

## **E. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position/Fund Balance**

### **1. Cash and Cash Equivalents**

For purposes of the statement of cash flows, the City considers all short-term debt securities purchased with a maturity of three months or less to be cash equivalents. Cash and cash equivalents in governmental funds includes cash on hand, deposits with financial institutions or fiscal agents, and money market deposits with trust departments.

### **2. Investments**

The City reports its investments at fair value as determined primarily by quoted market prices and matrix pricing of similar debt securities, except for 1) non-participating investment contracts (nonnegotiable certificates of deposit and repurchase agreements) which are reported at cost, which approximates fair market value and 2) investments held by 2a-7 like external investment pools such as the WV Money Market and WV Government Money Market pools, which are measured at amortized cost, as permissible under Governmental Accounting Standards Board (GASB) Statement No. 31, as amended by GASB Statements No. 72 and 79. All investment income, including changes in fair market value of investments, are recognized as revenue in the operating statement. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The investment policy for the City, including the Pension funds, follows the guidelines established under Section 8-22-22a of the West Virginia State Code. State statutes authorize the City to invest in the Municipal Bond Commission, obligations of the United States or any agency thereof, obligations of the state, and high graded debt of private corporations. In addition to the above, the Pension funds can also invest in equities

**CITY OF WEIRTON, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

---

and mutual funds. The City does not have a policy for concentration of credit, interest, and credit risk in addition to the state's governing statutes.

### **3. Restricted Assets**

Certain proceeds of the proprietary funds revenue bonds, as well as certain resources set aside for their bond repayment, maintenance and construction, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants and/or public service commission requirements.

Total restricted assets, which consist of interest bearing checking accounts and deposits with the West Virginia Municipal Bond Commission, amounted to \$1,192,383.

### **4. Trade Receivables**

All trade receivables are shown at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

### **5. Inventories**

All funds, except the Water Board, consider inventories as expenditures at the time of purchase; therefore, they do not appear on the City's financial statements. Inventory for the Water Board is stated at cost.

### **6. Deferred Outflows of Resources**

Deferred outflows of resources represent a consumption of net position and or fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that time.

### **7. Capital Assets and Depreciation**

The City's property, plant, equipment, and proprietary fund infrastructure and governmental fund infrastructure purchased or constructed after June 30, 1980 with useful lives of more than one year are stated at historical cost, or estimated historical cost, if actual cost is unavailable, and are comprehensively reported in the government-wide financial statements. Proprietary capital assets are also reported in their respective fund financial statements. Donated assets are stated at fair value on the date donated. The City generally capitalizes assets with a cost of \$5,000 or more as acquisition and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. Infrastructure recorded by the City includes roads/streets, alleys, bridges, trails, and trail bridges.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset-type</u>	<u>Years</u>
Land Improvements	5-70
Building and improvements	5-70
Infrastructure	10-50
General plant	20-50
Furniture, machinery, and equipment	4-45

**CITY OF WEIRTON, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

**8. Compensated Absences**

Full-time, permanent employees are granted vacation, other paid time off and comp time benefits in varying amounts to specified maximums depending on tenure with the City. Employees are entitled to their accrued vacation leave upon termination. The estimated liabilities include required salary-related payments. Compensated absences are reported as accrued in the government-wide and proprietary financial statements. The current portion of this debt is estimated based on historical trends. Governmental funds report only the compensated absences liability payable from expendable, available financial resources in the fund financial statements.

**9. Long – Term Debt**

In the government-wide and proprietary financial statements, outstanding debt is reported as liabilities. Bond discounts and premiums are amortized over the terms of the respective bonds using the straight line method. Debt discounts and premiums are netted against the respective portions of current and non-current bonds payable on the government-wide statement of net position. Gain or loss upon refunding of debt is reported as deferred inflows or deferred outflows and amortized over the term of the related debt. Bond issuance costs are expensed as incurred.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures.

**10. Deferred Inflows of Resources**

Deferred inflows of resources represent an acquisition of net position and or fund balance that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

**11. Net Position**

Net position presents the difference between assets and liabilities in the statement of net position. Net position is reported as restricted when there are legal limitations imposed on their use by external restrictions by creditors, grantors, laws or regulations of other governments. Net position is reported as invested in capital assets for the portion of net position related to the historical cost of capital assets less any accumulated depreciation and less any debt that remains outstanding that was used to finance those capital assets. All other net position is reported as unrestricted. When an expense is incurred that can be paid using either restricted or unrestricted resources, the City's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

**12. Fund Balance**

The City's fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable

The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

Restricted

A fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or are imposed by law through constitutional provisions or enabling legislation.

**CITY OF WEIRTON, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

---

Committed	The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action. The City's highest level of decision-making authority is City Council. Formal action is required to be taken to establish, modify or rescind a fund balance commitment is through an ordinance.
Assigned	Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts are intended uses established by City Council or a City official delegated with that authority.
Unassigned	Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications.

The City applies restricted resources first when expenditures are incurred for the purposes for which either restricted, committed, assigned, or unassigned amounts are available. Similarly, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of these fund balance classifications could be used.

### **13. Estimates**

The presentation of financial statements in conformity with generally accepted accounting principles require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from these estimates.

### **14. Pension**

For purposes of measuring the net pension asset and liability and deferred outflows/inflows of the resources related to pensions, and pension expense, information about the fiduciary net positions of the West Virginia Public Employee Retirement System (PERS) and the West Virginia Municipal Police Officer and Firefighter Retirement System (MPFRS) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the PERS and MPFRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### **15. Postemployment Benefits Other Than Pensions (OPEB)**

For purposes of measuring the net OPEB liability and deferred outflows/inflows of the resources related to OPEB, and OPEB expense, information about the fiduciary net position of the West Virginia Retiree Health Benefits Trust Fund (RHBT) and additions to/deductions from the RIIBT's fiduciary net position have been determined on the same basis as they are reported by the RHBT. RHBT recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### **16. Change in Accounting Principle**

Effective July 1, 2018, the City adopted GASB Statement No. 88, *Certain Disclosures related to Debt, including Direct Borrowings and Direct Placements*. The objective of the requirements of this statement is to improve consistency in the information that is disclosed in the notes to the financial statements related to debt, including direct borrowings and direct placements, and to provide financial statement users with additional essential information about debt. There is no effect on beginning net position or fund balance.

**CITY OF WEIRTON, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

---

**F. Revenues and Expenditures/Expenses**

**1. Program Revenues**

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

**2. Proprietary Funds Operating and Nonoperating Revenues and Expenses**

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Sanitary Board, Water Board, Board of Park Commissions Fund, and Internal Service Fund are charges to customers for sales and services. Operating expenses for the enterprise funds and the internal service fund include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**NOTE II - TRANSFERS**

Transfers and payments within the reporting entity are primarily for the purposes of subsidizing operating functions, funding capital projects and asset acquisitions, or maintaining debt service on a routine basis. Resources are accumulated in a fund to support and simplify the administration of various projects or programs.

Substantial operating subsidies are provided by the General Fund to the Board of Park Commissions as well as during the year the Gasoline fund transferred capital assets to the General Fund. Such payments are reported as transfers in the accompanying financial statements. These payments are detailed in the schedule below.

The government-wide statement of activities eliminates transfers as reported within the segregated governmental and business-type activities columns. Only transfers between the two columns appear in this statement.

The following schedule reports transfers and payments within the primary government reporting entity for the year ended June 30, 2019:

	Major governmental funds		Internal Service fund	
	General fund	Coal severance	Gasoline fund	
Governmental activities				
Major governmental funds				
General fund	-	-	\$	361,790
Business – type activities

**NOTE III – PROPERTY TAXES**

Real property taxes attach as an enforceable lien on all real property on which taxes are assessed on July first. There is no lien denominated as such on personal property. However, statutes provide that the sheriff of a county may distrain for delinquent taxes any goods and chattels belonging to a person assessed. All current taxes assessed on real and personal property may be paid in two installments; the first installment is payable on September first of the year for which the assessment is made and becomes delinquent on October first, and the second installment is payable on the first day of the following March and becomes delinquent on April first.

Taxes paid on or before the date when they are payable, including both first and second installments, are subject to a discount of two and one-half percent. If taxes are not paid on or before the date on which they become delinquent, including both first and second installments, interest at the rate of nine percent per annum is added from the date they become delinquent until paid.

The sheriff of each county, as ex officio county treasurer, collects all taxes levied in that particular county. Each month the sheriff is required to pay all monies collected for any municipal corporation into the respective treasury of that municipality, payment to be made on or before the tenth day of each month for all monies collected during the preceding month. After the sheriff has collected eighty-five percent of the combined total of all taxes assessed on real and personal property, the sheriff is allowed a commission of two and one-half percent, not to exceed \$15,000, on the remainder of the taxes actually collected, exclusive of interest and charges thereon. The commission so allowed is charged against the various funds for which the taxes are collected.

All municipalities within the state are authorized to levy taxes not in excess of the following maximum levies per \$100 of assessed valuation: Class I property, twelve and five-tenths cents (12.5 cents); on Class II property, twenty-five cents (25.0 cents); and on class IV property, fifty cents (50.0 cents). In addition, counties may provide for an election to lay an excess levy, the rates not to exceed statutory limitations, provide that at least sixty percent of the votes cast ballots in favor of the excess levy.

The levy rates of the City for the fiscal year ended June 30, 2019 were assessed as follows:

Assessed class of property	Assessed valuation for tax purposes	Current expense
Class I	\$ -	12.5 cents
Class II	281,716,080	25.0 cents
Class IV	431,334,172	50.0 cents

**NOTE IV – BUDGETARY INFORMATION**

The General Fund and Coal Severance Tax Fund appropriated budgets are prepared on a detailed line item basis. This detail is then submitted to the West Virginia State Auditor's Office, Chief Inspector Division, for approval. Revenues are budgeted by source. Expenditures are budgeted by department. This constitutes the legal level of control. Expenditures may not exceed appropriations at this level. All budget revisions require approval by the City Council. Revisions that change a "departmental total" must also have approval of the West Virginia State Auditor, Chief Inspector. Revisions to the budget were made throughout the year.

The budgets for the General Fund and Coal Severance Tax Fund are prepared on the cash and expenditures/encumbrances basis. Revenues are budgeted in the year receipt is expected; and expenditures, which include encumbrances, are budgeted in the year that the applicable purchase orders are expected to be issued. The budget and actual financial statements are reported on this basis. Unencumbered appropriations for annually budgeted funds lapse at fiscal year-end.

**NOTE V – STABILIZATION FUND**

City Council has established, through ordinance, a stabilization fund to set aside amounts to be used in emergency situations or for short-term cash flow purposes. The City maintains the stabilization fund within the general fund. As of June 30, 2019, the balance of the stabilization fund is \$2,942,035.

**NOTE VI – DEPOSITS AND INVESTMENTS**

**1. Custodial Credit Risk**

*Deposits* - The City has \$6,934,643 in deposits with financial institutions collateralized by securities held by pledging financial institutions or their agents in the City's name as of June 30, 2019.

**2. Investments**

As of June 30, 2019, the City held the following investments:

Level (Note VII)	Governmental	Fiduciary	Business – type activities	Total
Money markets	1	\$ 2,831,648	\$ 632,662	\$ 3,465,051
Certificate of deposits	*	-	194,770	194,770
Corporate obligations	2	685,209	-	685,209
Mutual funds	1	5,773,314	173,227	5,946,541
Equities	1	11,009,203	-	11,009,203

 Total Investments	 \$ 2,831,648	 \$ 18,100,388	 \$ 1,355,417	 \$ 22,287,453

*\*Certificate of Deposits:* The City has determined that certificates of deposit held by the City do not meet the definition of a security as defined by Statement No. 72 of the Governmental Accounting Standards Board, *Fair Value Measurement and Application*, and are therefore not subject to the disclosure requirements.

*\*\*Municipal Bond Commission:* The City's business-type activities investments include funds held at the WV Municipal Bond Commission (MBC) for the revenue bond issuances. The funds held by the MBC are invested in the WV Government Money Market Pool at the WV Board of Treasury Investments (BTI), through the West Virginia State Treasury. The investment of the WV Government Money Market Pool is carried at amortized cost and measured at amortized cost for financial reporting purposes. Additional information regarding the pool as well as the most recent financial statements can be found at [www.wvbt.org](http://www.wvbt.org).

The West Virginia Legislature created the MBC to act as the fiscal agent/trustee for bond issuances of the State and its political subdivisions. The oversight of the MBC is the State Treasurer's Office, the State Auditor's Office, and other financial professionals not associated with government. Since 1932, the Legislature has made a blanket appropriation annually to cover possible deficiencies that could arise in sinking fund accounts. Standard and Poor's has recognized this annual Legislative appropriation and the MBC's management as a Credit Enhancement Program.

**NOTE VII – FAIR VALUE**

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of an asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

*Methodologies*

The following is a description of the valuation methodologies used by the City. There have been no changes in the methodologies of the City's investments.

*Mutual Funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the City are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the City are actively traded.

*Equities and money market funds:* Valued at the closing price in the active market in which the security is traded.

*Corporate Obligations:* Valued at closing price in the active market in which the security is traded.

**NOTE VIII – RECEIVABLES AND UNCOLLECTIBLE ACCOUNTS**

*Governmental Funds*

Taxes receivable include business and occupation taxes, municipal sales tax, property taxes, utility excise taxes, wine and liquor taxes, and hotel and motel taxes. Charges for services include amounts due from customers for police and fire service fees and sanitation services. These receivables are due within one year. Certain funds report accounts receivable net of an allowance for uncollectible accounts and revenues net of uncollectibles. Related amounts are shown in the following table:

**NOTE XI – LONG TERM DEBT**

*Revenue Bonds*

Revenue bonds outstanding as of June 30, 2019 consist of debt issued by the City for its water and sewer treatment facilities. The debt is payable solely from and secured by a pledge of the gross revenues to be derived from the operation of the treatment facilities.

Bond indentures contain significant requirements for annual debt service and flow of funds through various restricted accounts. The general bond indentures and their supplements for the bonds require the use of revenue, depreciation, operations and maintenance, reserve, construction, renewal and replacement, rebate and sinking fund accounts.

The annual debt service requirements to maturity for bond debt as of June 30, 2019 are as follows:

*Significant Default and Termination Events with Finance Related Consequences*

The note contains provisions in the agreement with the lender which provide for the security (collateral) for the borrowing as well as default provisions and/or termination events with finance-related consequences for the City. Furthermore, the agreement may have subjective loan acceleration clauses. The following provides a description of the significant conditions present in the agreement.

*Covenants*

- **Notices of Claims and Litigation/Notice of Adverse Events** - City will promptly notify Lender in writing of all threatened and actual litigation, governmental proceeding, default, and every other occurrence that may have a material adverse effect on City's business, financial condition, or the property.
- **Insurance** - City will maintain adequate fire and extended risk insurance coverage, business interruption, workers' compensation, commercial general liability, and other insurance required by law or as may be required by Lender. If the City fails to maintain required insurance, the absence of the required insurance will be an Event of Default.
- **Confirmatory Documents and Actions** - City agrees that on Lender's request, City will do any act or execute any additional documents that are or may be required to make the terms of the Loan conform to the conditions contained in Lender's commitment to City.
- **Payment of taxes** - City will pay all taxes, levies, and assessments required by all local, state, and federal agencies. City's failure to promptly pay any tax, levy, or assessment due will be an Event of Default unless City is diligently disputing the amount and City has established a reserve account for the payment of the taxes if City does not prevail in the dispute.
- **Business Existence and Operations** - City will keep City's existence in its current organizational form in full force and effect unless Lender gives prior written consent to City's proposed change. City will not sell or merge City's business or any part of City's business without the Lender's prior written consent, City will continue its business as currently conducted. City will not change its name, its identification number, or its place of organization without Lender's prior written consent. City will keep its books and records at the address in this Agreement. City will promptly notify Lender in writing of any planned change in City's principal place of business.
- **Environmental Compliance** - City will comply with all laws affecting the environment.
- **Use of Proceeds** - City will use the Loan proceeds in its business.
- **No Encumbrances or Transfer of Assets** - City will not mortgage, assign, hypothecate, or encumber any of the Property except to Lender without Lender's prior written permission. City will not sell, transfer, or assign any of the Property without Lender's prior written permission. City will not merge, consolidate, sell, transfer, license, lease, encumber or otherwise dispose of City's Property or City's business.
- **Other Information** - City will submit Annual Financial Statements within 120 days after the end of each fiscal Year in form acceptable to Lender.

**CITY OF WEIRTON, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

---

*Default Events*

- **Noncompliance with Lender Agreements** - Default by City under any provision of this Agreement, the Related Documents, or any other agreement with Lender.
- **False Statements** - If a Party made or makes a false or misleading misrepresentation in this Agreement, in the Related Documents, in any supporting material submitted to Lender or to third parties providing reports to Lender, or in Financial Statements given or to be given to Lender
- **Material Adverse Change** - Any material adverse change in the City's business, financial condition, or the Property has occurred or is imminent; if the full performance of the obligations of any Party is materially impaired; or if the Collateral and its value or Lender's rights with respect thereto are materially impaired in any way.
- **Insolvency or Liquidation** - A Party voluntarily suspends transaction of its business or does not generally pay debts as they mature.
- **Default on Unrelated Debt** - If City materially defaults under a provision of an agreement with a third party or if the indebtedness under such an agreement is accelerated.
- **Judgements or Attachments** - If there is entered against the City a judgment that materially affects the City's business, financial condition, or the property, or if a tax lien, levy, writ of attachment, garnishment, execution, or similar item is or will be issued against the Collateral.
- **Collateral Impairment** - Lender has a good-faith belief that Lender's rights in the collateral are or will soon be impaired or that the collateral itself is or soon will be impaired.
- **Termination of Existence or Change of Control** - If the City is sold or merged or if the City's suspends business or ceases to exist.
- **Insecurity** - If Lender has a good-faith belief that City is unable or will soon be unable to perform duties.
- **Default of Insurance and Payment of taxes covenants**, as described above.

*Default Remedies*

- **Acceleration, Set Off** - Upon an Event of Default, the Loan and the Indebtedness may, at Lender's sole option, be declared immediately due and payable. Lender may apply the Parties' bank accounts and any other property held by Lender against the Indebtedness.

The annual debt service requirements to maturity for notes payable as of June 30, 2019 are as follows:

#### **NOTE XII – RISK MANAGEMENT**

The City is exposed to various risks of loss related to torts, theft, or damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

In order to manage its risk of loss, the City purchases commercial insurance for liability, property and casualty losses as well as for employee health and basic life coverage. In addition, the City participates in the West Virginia Workers' Compensation Fund for coverage against injuries to employees. The West Virginia Workers' Compensation Fund risk pool retains the risk of loss under the program.

#### **NOTE XIII – REVENUES AND EXPENDITURES – BENEFITS FUNDED BY THE STATE OF WEST VIRGINIA**

For the year ended June 30, 2019, the State of West Virginia contributed payments on behalf of City employees as follows:

City of Weirton Policemen's Pension and Relief Fund	\$ 390,069
City of Weirton Firemen's Pension and Relief Fund	\$ 227,874
<b>Total</b>	<b>\$ 617,943</b>

State contributions are funded by allocations of the state's insurance premium tax. The City is not legally responsible for these contributions.

#### **NOTE XIV – INTERFUND RECEIVABLES AND PAYABLES**

Generally, outstanding balances between funds reported as "due to/from other funds" are related to purposes described in Note 1 as well as for other miscellaneous receivables/payables between funds.

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

The City reporting entity participates in two single-employer, defined benefit, public employee retirement plans. Assets are held separately and may be used only for the payment of benefits to the members of the respective plans.

The City also participates in two state-wide cost sharing, multi-employer defined benefit public employee retirement systems which covers employees of the State of West Virginia and its participating political subdivisions. Both systems are administered by the State of West Virginia and are funded by contributions from participants, employers, and state appropriations, as necessary.

##### *Actuarially Determined Contribution*

Information used to determine the actuarially determined contribution for the two single-employer plans are located in the Required Supplementary Information section of the report.

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

---

All permanent full-time police department personnel and permanent full-time fire department personnel hired prior to October 1, 2016 are covered by these plans which is being funded in accordance with Chapter 8, Article 22 of the West Virginia Code.

Members are eligible for normal retirement at the earlier of age 50 with 20 years of credited service or age 65. Annual retirement pension benefits commence upon retirement or upon the member attaining age fifty, whichever is later, payable in twelve monthly installments. The annual retirement benefit equals 60% of average annual compensation, not less than \$6,000, plus an additional percentage of average annual compensation for service over 20 years equal to 2% for each year of service between 20 and 25 years and 1% for each year of service between 25 and 30 years. Employees serving in the military are eligible for an additional 1% of average annual compensation for each year of military service up to 4 years. The maximum benefit is limited to 75% of average annual compensation. Benefits continue for life.

Members are eligible for disability retirement after earning five years of service. There is no service requirement if disability is service related. The monthly disability benefit equals the greater of 60% of monthly salary at disability or \$500. Employees serving in the military are eligible for an additional benefit of 1% of monthly salary at disability for each year of military service up to four years. Disability benefits, when aggregated with monthly state workers compensation benefits, shall not exceed 100% of the member's monthly compensation at the time of disability. Benefits continue for life or until recovery.

Members are eligible for death benefits after earning five years of service. There is no service requirement if death is service related. Retirees and terminated vested participants are also eligible. The benefit is equal to 60% of the participant's benefit, but not less than \$300 per month, payable to the spouse until death or remarriage. Other dependents (children, parents, brothers and sisters) are also eligible for death benefits. To each child, twenty percent of the participant's benefit until the child attains eighteen or marries; to each dependent orphaned child, twenty-five percent of the participant's benefit until the child attains eighteen or marries; to each dependent parent, ten percent of the participant's benefit for life, and to each dependent brother or sister, the sum of fifty dollars per month (but a total not to exceed \$100 per month) until such individual attains the age of eighteen or marries. In no case shall the payments to the surviving spouse and children be reduced below sixty-five percent of the total amount paid to all dependents.

All retirees, surviving beneficiaries and disability pensioners are eligible for automatic cost-of-living benefits commencing on the first day of July following two years of retirement. The benefit equals the percentage increase in the Consumer Price Index, limited to 4% (2% for some disability retirees), and multiplied by the sum of the allowable amount which is the first \$15,000 of the total annual benefits paid and the accumulated supplemental pension amounts for prior years.

Any member who terminates employment prior to retirement will be entitled to a refund of contributions without interest.

As of July 1, 2018, membership of the plan is as follows:

	PPRF	FPRF
Retirees and Beneficiaries	50	21
Inactive, Non retired Members	-	-
Active Members	35	22
<b>Total</b>	<b>85</b>	<b>43</b>

**Funding Policies:**

Eligible policemen hired prior to January 1, 2010 contribute 9% of their monthly salary. Eligible policemen hired after January 1, 2010 contribute 9.5% of their monthly salary. The total covered payroll for fiscal year ended June 30, 2019 was \$2,133,389. The total employee contribution was \$186,200.

**CITY OF WEIRTON, WEST VIRGINIA**

---

Eligible firemen hired prior to January 1, 2010 contribute 7% of their monthly salary. Eligible firemen hired between January 1, 2010 and October 1, 2016 contribute 9.5% of their monthly salary. The total covered payroll for fiscal year ended June 30, 2019 was \$1,264,119. The total employee contribution was \$95,312.

The City does not contribute to the PPRF or the FPRF based upon the latest actuarial study. The City's contributions are based upon a fifteen-year solvency plan which stipulates the minimum contribution the City may make to this plan. This contribution method has been approved by the West Virginia legislature and projects the PPRF and the FPRF to be solvent under this method for the next consecutive fifteen-year period. This solvency plan must be actuarially updated on an annual basis.

Policemen's Pension and Relief Fund - The minimum required contribution of the City and State, according to the July 1, 2018 actuarial report, was \$2,726,520. Actual contributions were \$2,726,520 for the year ended June 30, 2019.

Firemen's Pension and Relief fund - The minimum required contribution of the City and State, according to the July 1, 2018 actuarial report, was \$559,116. Actual contributions were \$627,874 for the year ended June 30, 2019.

**Net Pension Liability:**

The components of net pension liability are as follows:

	<b>PPRF</b>	<b>FPRF</b>
Total pension liability	\$ 39,154,190	\$ 15,826,193
Less – Plan fiduciary net position	7,152,822	11,742,438

The target allocation and best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2019, are summarized in the following table:

Asset Class	Target Allocation Percentage	Expected Annualized Returns
Common Stocks – Large Cap	40.00%	7.00%
Common Stocks – Mid Cap	5.00%	7.00%
Common Stocks – Small Cap	5.00%	6.00%
International Equity	10.00%	7.90%
Fixed Income	40.00%	3.30%

**Actuarial Methods and Assumptions:**

The net pension liability is the actuarial present value of credited projected benefits. It is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and any step-rate benefits, estimated to be payable in the future as a result of employee service to date.

**PPRF:** According to the most recent actuarial report as of July 1, 2018, the average annual salary for benefits was \$63,707. There were 50 pensioners as of June 30, 2019 receiving an average of \$31,816 in pension benefits with expected cost-of-living increases up to 2.75%.

**FPRF:** According to the most recent actuarial report as of July 1, 2018, the average annual salary for benefits was \$60,178. There were 21 pensioners as of June 30, 2019 receiving an average of \$35,131 in pension benefits with expected cost-of-living increases up to 2.75%.

The actuarial assumptions and other information used to determine the net pension liability are as follows:

	<u>PPRF</u>	<u>FPRF</u>
General inflation rate:	2.75%	2.75%
Expected salary increase:	3.75% general and wage inflation adjustment plus service-based increase of 20.0% for one year of service, 6.5% for two years of service, 3.5% for three years of service, 2.75% for four years of service, 2.5% for five to nine years of service, 2.0% for ten to twenty-nine years of service, 1.25% for thirty to thirty-four years of service, and 0% thereafter.

**Investment Details:**

The following represents the investment details for the Policemen's and Firemen's Pension and Relief Funds:

*Investment Policy* – The investment policy covering the allocation of invested assets for the City is established by the Board of Trustees and is subject to the limitations defined in West Virginia Code 8-22-22 and 8-22-22a.

*Concentration of Credit Risk* – Except for investments in a mutual fund, no individual investments in any one issuer represents more than 5% of the total investments for the pension funds and, within each pension fund, no individual investment in any one issuer represents more than 5% of the total investments for that fund.

*Credit Risk* – The City's investment policy does not specify that investments must be rated at a specified level. As of June 30, 2019, the City's investments were rated using Moody's Investor Services, when available.

*Interest Rate Risk* – The City's pension plans follow West Virginia State Code 8-22-22. The City does not have a policy for interest rate risk in addition to the governing West Virginia statutes.

Pension Liability, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions:

At fiscal year-end, the City reported the following liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018 and rolled forward to June 30, 2018 using the actuarial assumptions and methods described in the appropriate section of this note.

The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2019, the City reported the following proportion and increases/decreases from its proportion measured as of June 30, 2018:

Amount for proportionate share of net pension liability	\$ 816,465
Percentage for proportionate share of net pension liability	0.3164%
Increase / (decrease) % from prior proportion measured	0.0136%

For the year ended June 30, 2019, the government recognized the following pension expense:

	Government Activities	Business-Type Activities
Government – wide pension expense	<u>\$ 47,906</u>	<u>\$ 65,290</u>

The City reported deferred outflows of resources and deferred inflows of resources related to the pension plan from the following sources:

Money-weighted rate of return, net of investment expenses, for the year ended June 30, 2019, based on the measurement date of June 30, 2018 was 15.82%.

Actuarial Assumptions:

The total pension liability was determined by an actuarial valuation as of July 1, 2017 and rolled forward to June 30, 2018 for the pension plan, using the following actuarial assumptions, applied to all periods included in the measurement.

Actuarial cost method	Individual entry age normal cost with level percentage of payroll
Asset valuation method	Fair value
Amortization method	Level dollar, fixed period
Amortization period	Through fiscal year 2035

The long-term expected rate of return on pension plan investments were determined using a building-block method in which best-estimate rates of expected future real rates of returns (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding the expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class included are summarized in the following chart:

Investment	PERS Target Asset Allocation	Long – term Expected Real Rate of Return	Weighted Average Expected Real Rate of Return
Fixed income	15.0%	3.3%	0.50%
Domestic equity	27.5%	4.5%	1.24%
International equity	27.5%	8.6%	0.50%
Real Estate	10.0%	6.0%	0.60%
Private Equity	10.0%	6.4%	0.64%
Hedge Funds	10.0%	4.0%	0.40%
<b>Total</b>	<b>100%</b>		<b>5.75%</b>
Inflation			<b>2.10%</b>
			<b>7.85%</b>

**Discount Rate:**

The discount rate used to measure the total pension liability was 7.50% for the pension plan. The projection of the cash flows used to determine the discount rate assumed that employer contributions will continue to follow in the current funding policies. Based on those assumptions, the fiduciary net position for the pension plan was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rates of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liability for the plan.

The following table presents the sensitivity of the net pension liability (asset) to changes in the discount rate, calculated using the current discount rate as used in the actuarial evaluation, and what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease 6.50%	Current Discount Rate 7.50%	1% Increase 8.50%
City's proportionate share of PERS's net pension liability (asset)	\$ 3,290,635	\$ 816,465	\$ (1,275,473)

**Pension Plan Fiduciary Net Position:**

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report available at the Consolidated Public Retirement Board's website at [www.wvretirement.com](http://www.wvretirement.com). **West Virginia Municipal Police Officers and Firefighters Retirement System (MPFRS)**

Plan Description, Contribution Information, and Funding Policies:

The City participates in the Municipal Police Officers and Firefighters Retirement System, a state-wide, cost-sharing, multiple-employer defined benefit plan, on behalf of City employees for firefighters hired after October 1, 2016. The system is administered by agencies of the State of West Virginia and funded by contributions from participants, employers, and State appropriations, as necessary.

The cost-sharing multiple employer plan is administered by the Consolidated Public Retirement Board (CPRB), which acts as a common investment and administrative agent for all of the participating employers. CPRB issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CPRB website at [www.wvretirement.com](http://www.wvretirement.com). The following is a summary of eligibility factors, contributions methods and benefit provisions:

Eligibility to participate	All City of Weirton firefighters hired after October 1, 2016
Authority establishing contribution obligations and benefit provisions	State statute.
Plan member's contribution rate	8.50%
City of Weirton's contribution rate	8.50%
Period required to vest	Five years
Benefits and eligibility for distribution	<p>A MPFRS member is eligible for "normal" retirement when one of the following occurs:</p> <ul style="list-style-type: none"><li>• Attainment of age 50 and the completion of 20 years of contributory service; or</li><li>• Attainment of age 50 when age plus contributory service equals 70 while still in covered employment; or</li><li>• Attainment of age 60 and completion of 10 years contributory service while still in covered employment; or</li><li>• Attainment of age 62 and completion of 5 years of contributory service.</li></ul>
	<p>The final average salary or FAS (5 highest consecutive years in the last 10 years of service) times the years of service times the benefit percentage equals the annual retirement benefit. The accrued benefit on behalf of any member is calculated as follows:</p> <p>2.6% x FAS x Years of Credited Service for years 1- 20 2.0% x FAS x Years of Credited Service for years 21- 25 1.0% x FAS x Years of Credited Service for years 26- 30</p>
Deferred retirement portion	No
Provisions for:	
Cost of living	No
Death benefit	Yes
Disability benefit	Yes

**Pension Liability, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions:**

At fiscal year-end, the City reported the following liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017 and rolled forward to June 30, 2018 using the actuarial assumptions and methods described in the appropriate section of this note.

The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2019, the City reported the following proportion and increases/decreases from its proportion measured as of June 30, 2018:

Amount for proportionate share of net pension liability (asset)	\$ (11,675)
Percentage for proportionate share of net pension liability	0.0316%
Increase / (decrease) % from prior proportion measured	0.7294%

For the year ended June 30, 2019, the government recognized the following pension expense:

		Government Activities
Government – wide pension expense		<u>\$ (9,032)</u>

The City reported deferred outflows of resources and deferred inflows of resources related to the pension plan from the following sources:

	Governmental activities	
	Deferred outflows of resources	Deferred inflows of resources
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ 363
Net changes in proportion and differences between employer contributions and proportionate share of contributions	-	6,510
Changes in actuarial assumptions	-	688
Differences between expected and actual experience with regard to economic or demographic factors	1,383	-
Employer contributions to pension plan subsequent to the measurement date	<u>7,660</u>	<u>-</u>
	<u><u>\$ 9,043</u></u>	<u><u>\$ 7,561</u></u>

The amount reported as deferred outflows of resources related to the pension plan resulting from government contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the pension plan will be recognized in pension expense as follows:

Year ended June 30	Governmental activities	Pension expense
2020	\$ (1,170)	
2021		(1,205)
2022		(1,309)
2023		(1,132)

Annual money-weighted rate of return:

Money-weighted rate of return, net of investment expenses, for the year ended June 30, 2019, based on the measurement date of June 30, 2018 was 1.13%.

Actuarial Assumptions:

The total pension liability was determined by an actuarial valuation as of July 1, 2017 and rolled forward to June 30, 2018 for the pension plan, using the following actuarial assumptions, applied to all periods included in the measurement.

Actuarial cost method	Individual entry age normal cost with level percentage of payroll
Asset valuation method	Fair value
Amortization method	Level dollar, fixed period
Amortization period	-
Investment rate of return	7.50%
Projected salary increases	By age from 4.75% at age 30 declining to 3.25% at age 65
Inflation rate	3.00%
Discount rate	7.50%
Mortality rate	Active – 100% of RP-2014 Non-Annuitant tables (sex-distinct), Scale MP-2016 fully generational. Healthy male retirees – 103% of RP-2014 Male Healthy Annuitant table, Scale MP-2016 fully generational. Healthy female retirees – 100% of RP-2014 Female Healthy Annuitant table, Scale MP-2016 fully generational. ---

The actuarial assumptions used in the July 1, 2017 MPFRS valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2017.

The long-term expected rate of return on pension plan investments were determined using a building-block method in which best-estimate rates of expected future real rates of returns (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding the expected inflation.

The target allocation and best estimates of long-term geometric rates of return for each major asset class included are summarized in the following chart:

Investment	PERS Target Asset Allocation	Long – term Expected Real Rate of Return	Weighted Average Expected Real Rate of Return
Fixed income	15.0%	3.3%	0.50%
Domestic equity	27.5%	4.5%	1.24%
International equity	27.5%	8.6%	0.50%
Real Estate	10.0%	6.0%	0.60%
Private Equity	10.0%	6.4%	0.64%
Hedge Funds	10.0%	4.0%	0.40%
 Total	 100%		5.75%
Inflation			2.10%
			7.85%

**Discount rate:**

The discount rate used to measure the total pension liability was 7.50% for the pension plan. The projection of the cash flows used to determine the discount rate assumed that employer contributions will continue to follow in the current funding policies. Based on those assumptions, the fiduciary net position for the pension plan was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rates of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liability for the plan.

The following table presents the sensitivity of the net pension liability (asset) to changes in the discount rate, calculated using the current discount rate of 7.5% as used in the actuarial evaluation, and what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease 6.50%	Current Discount Rate 7.50%	1% Increase 8.50%
City's proportionate share of MPFRS's net pension liability (asset)	\$ (7,950)	\$ (11,675)	\$ (14,444)

**Pension plan fiduciary net position:**

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report available at the Consolidated Public Retirement Board's website at [www.wvretirement.com](http://www.wvretirement.com). That information can also be obtained by writing to the West Virginia Consolidated Public Retirement Board, 4101 MacCorkle Avenue SE, Charleston, WV 25304.

**NOTE XVI – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)**

**West Virginia Public Employees Insurance Agency (WV PEIA)**

*General Information about the OPEB Plan*

Plan description – The City participates in PERS. Although the City is a non-participating agency with the WV PEIA, eligible retirees have the option of obtaining health insurance benefits through WV PEIA under PERS. The West Virginia Other Postemployment Benefit Plan (the Plan), is a cost-sharing, multiple-employer defined benefit postemployment healthcare plan. The financial activities of the Plan are accounted for in the West Virginia Retiree Health Benefit Trust Fund (RHBT), a fiduciary fund of the State of West Virginia. The Plan is administered by a combination of the WV PEIA and the RHBT staff. Plan benefits are established and revised by WV PEIA and the RHBT management with approval of the Finance Board. The Finance Board is comprised of nine members. Finance Board members are appointed by the Governor, serve a term of four years and are eligible for reappointment. The State Department of Administration cabinet secretary serves as Chairman of the Board. Four members represent labor, education, public employees and public retirees. The four remaining members represent the public at large.

The RHBT audited financial statements and actuarial reports can be found on the WV PEIA website at [www.peia.wv.gov](http://www.peia.wv.gov). You can also submit your questions in writing to the West Virginia Public Employees Insurance Agency, 601 57th. Street, SE, Suite 2, Charleston, WV, 25304.

Benefits provided - The Plan provides medical and prescription drug insurance and life insurance. The medical and prescription drug insurance is provided through two options: 1) Self-Insured Preferred Provider Benefit Plan (primarily for non-Medicare-eligible retirees and spouses) and 2) External Managed Care Organizations (primarily for Medicare-eligible retirees and spouses).

As noted above, because the City participates in the PERS, retirees have the option of choosing to participate in the WV PEIA. The retiree's insurance premium is dependent on the number of years worked. Since the City is not a participant in PEIA, a fee is charged for each of the retirees who choose this option. This fee also is based on the number of years worked. The State of West Virginia bears the remaining costs to fund this program. The City's retirees' insurance fees were as follows:

<b>Governmental activities</b>		
General		\$ 106,803
Total		<u>\$ 106,803</u>
 <b>Business-type activities</b>		
Water Board		\$ 80,162
Sanitary Board		49,972

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

At fiscal year-end, the City reported a liability of \$2,642,486 for its proportionate share of the net OPEB liability. The net OPEB liability, deferred inflows and outflows of resources and OPEB expense were determined by an actuarial valuation date as of June 30, 2017, rolled forward to June 30, 2018, which is the measurement date. The City's proportion of the net OPEB liability was based on a projection of the City's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating governments, actuarially determined.

	<b>OPEB</b>
Amount for proportionate share of net OPEB liability	\$ 2,642,486
Percentage for proportionate share of net OPEB liability	0.12317%

<b>Total</b>	<b>\$</b>	<b>(512,776)</b>	<b>\$</b>	<b>(158,083)</b>

Actuarial assumptions:

The total OPEB liability was determined by an actuarial valuation as of June 30, 2017, rolled forward to June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

**Public Employees Insurance Agency (WV PEIA)**

Actuarial assumptions:

Actuarial cost method	Entry Age Normal.
Amortization method	Level percentage of payroll, closed.
Remaining amortization period	20 years closed as of June 30, 2017.
Asset valuation method	Market value
Investment Rate of Return	7.15%, net of OPEB plan investment expense, including inflation.
Inflation rate	2.75%
Wage inflation	4.00%
Salary increases	Dependent upon pension system, ranging from 3.0% to 6.5%, including inflation.
Retirement age	Experience-based table of rates that are specific to the type of eligibility condition.
Mortality	Last updated for the June 30, 2016, actuarial valuation.
Healthcare cost trend rates	Post-Retirement: RP-2000 Healthy Annuitant Mortality Table projected with Scale AA on a fully generational basis for PERS. Pre-Retirement: RP-2000 Non-Annuitant Mortality Table projected with Scale AA on a fully generational basis for PERS.
Aging factors	Actual trend used for fiscal year 2018. For fiscal years on and after 2019, trend starts at 8.00% and 10.00% for pre and post-Medicare, respectively, and gradually decreases to an ultimate trend of 4.50%. Excess trend rate of 0.13% and 0.00% for pre and post-Medicare, respectively, is added to healthcare trend rates pertaining to per capita claims beginning in 2022 to account for the excise tax.
Expenses	Based on the 2013 SOA Study "Health Care Costs – From Birth to Death".

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2010 through June 30, 2015.

The long-term rates of return on OPEB plan investments are determined using a building-block method in which estimates of expected future real rates of returns (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding expected inflation. The strategic asset allocation consists of 55% equity, 15% fixed income, 10% private equity, 10% hedge fund and 10% real estate invested. Short-term assets used to pay current year benefits and expenses are invested with the WVBTI. Best estimates of long-term geometric rates are summarized in the following table:

	Long-term Expected Real Rate of Return
Large Cap Domestic	17.0%
Non-Large Cap Domestic	22.0%
International Qualified	24.6%
International Non-Qualified	24.3%
International Equity	26.2%
Short-Term Fixed	0.5%
Total Return Fixed Income	6.7%
Core Fixed Income	0.1%
Hedge Fund	5.7%
Private Equity	19.6%
Real Estate	8.3%
Opportunistic Income	4.8%
Cash	0.0%

Discount rate:

The discount rate used to measure the OPEB liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions would be made at rates equal to the actuarially determined contribution rates, in accordance with prefunding and investment policies. The OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. Discount rates are subject to change between measurement dates.

Sensitivity of the City's proportionate share of the net OPEB liability to changes in the discount rate:

The following chart presents the City's proportionate share of the net OPEB liability, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage point higher than the current discount rate:

	1% Decrease 6.15%	Current Discount Rate 7.15%	1% Increase 8.15%
City's proportionate share of net OPEB liability	\$ 3,105,716	\$ 2,642,486	\$ 2,256,334

Sensitivity of the City's proportionate share of the net OPEB liability to changes in the healthcare cost trend rates:

The following chart presents the City's proportionate share of the net OPEB liability, as well as what the proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage point higher than the current healthcare cost trend rates described in the actuarial assumptions:

	1% Decrease	Health Care Cost Trend Rates	1% Increase
City's proportionate share of the net OPEB liability	\$ 2,186,515	\$ 2,642,486	\$ 3,198,071

OPEB plan fiduciary net position:

Detailed information about the OPEB plan's fiduciary net position is available in the separately issued financial report available at the West Virginia Public Employee Insurance Agency's website at [peia.wv.gov](http://peia.wv.gov). That information can also be obtained by writing to the West Virginia Public Employee Insurance Agency, 601 57th Street, Suite 2, Charleston, WV, 25304.

**NOTE XVII – DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

In addition to assets, the statement of financial position and or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. All of the City's deferred outflows on the statement of net position are related to its defined benefit pension plans and OPEB plan.

In addition to liabilities, the statement of financial position and or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. All of the City's deferred inflows on the statement of net position are related to the defined benefit pension plans and OPEB plan. On the governmental funds balance sheet, the portion of the City's property taxes and business and occupational taxes receivable expected to be collected more than 60 days after the end of the fiscal year qualify for reporting in this category, as follows:

Property taxes	\$ 71,114
Business and occupational taxes	<u>4,959</u>
Total	<u><u>\$ 76,073</u></u>

**NOTE XVIII – CONTINGENCIES**

Litigation:

The City is a defendant in a number of lawsuits arising principally in the normal course of operations. All claims are protected by insurance, up to a certain amount, and would not likely have a material effect on the municipality's financial statements. The city attorney aggressively defends each case filed against the City.

Federal and State Grants:

In the normal course of operations, the City receives grant funds from various federal and state agencies. The grant programs are subject to audit by the granting authorities for the purpose of ensuring compliance with the conditions of the awards. Any liability for reimbursement which may arise as a result of these audits is not believed to be material.

**NOTE XIX – CONCENTRATION OF CREDIT RISK**

The General Fund charges Weirton residents and businesses a police and fire service fee and a refuse fee. The Water and Sanitary Boards are suppliers of water and sewer services to the residents and businesses of Weirton. The Gasoline Fund supplies gas and oil to various entities in addition to other departments of the City. These services and goods are provided on a credit basis without requiring collateral or any other security. At June 30, 2019, the City's accounts receivable on the statement of net position pertaining to these goods and services were \$1,857,866.

**NOTE XX – RISKS AND UNCERTAINTIES**

The City's Pension Trust Funds invest in various investment securities and mutual funds. Investment securities and mutual funds are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of fiduciary net position.

The actuarial present values of pension benefit obligations in Note XV are reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**NOTE XXI – PRIOR PERIOD RESTATEMENT**

The following restatement was performed to the net positions and fund balance at the beginning of the year due to the reconciliation of investments within a non-major government fund and an enterprise fund.

The following beginning balances required restatement:

	Statement of Activities		Statement of Revenues, Expenditures and Changes in Fund Balances	Statement of Revenues, Expenses and Changes in Net Position

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**For the Fiscal Year Ended June 30, 2019**

---

**1. Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the City of Weirton, West Virginia under programs of the federal government for the year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City of Weirton, West Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the City of Weirton, West Virginia.

**2. Summary of Significant Accounting Policies**

Expenditures reported in the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

**3. Indirect Cost Rate**

The City of Weirton, West Virginia has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

## **Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

Honorable Mayor and City Council  
City of Weirton  
200 Municipal Plaza  
Weirton, West Virginia 26062

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining information of the City of Weirton, West Virginia (the City) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated March 23, 2020.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance

Honorable Mayor and City Council  
City of Weirton  
200 Municipal Plaza  
Weirton, West Virginia 26062

### Report on Compliance for Each Major Federal Program

We have audited the City of Weirton, West Virginia's (the City's) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2019. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### Auditor's Responsibility

Our responsibility is to express our opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

### Opinion on Each Major Federal Program

In our opinion, the City of Weirton, West Virginia, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major programs for the year ended June 30, 2019.

## Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
