

# HELP PROTECT OUR WATER

## PICK UP AFTER YOUR PET

- When walking your pet, always carry a bag to dispose of pet waste. Never leave it on the ground.

- Properly dispose of pet waste by flushing it, putting it in the trash, or burying it in a 12-in deep hole covered with 8-in of soil.

- Routinely inspect your property to ensure no pet waste is left behind.

It's the neighborly thing to do and the right thing to do for the environment.
